

GLOBAL MARKET ACCESS

FACILITATING YOUR BUSINESS WORLDWIDE

FACILITATING YOUR BUSINESS WORLDWIDE

UL (Underwriters Laboratories) is a global independent safety science company with more than a century of expertise in standards development, testing and certification. Today, UL offers a comprehensive range of services to help manufacturers gain the compliance credentials they need to compete in the global marketplace. UL certifies, validates, tests, inspects, audits, and advises and educates. We provide the knowledge and expertise to help navigate growing complexities across the supply chain from compliance and regulatory issues to trade challenges and market access.

With laboratories, technical expertise and partnerships strategically distributed around the world, UL has become synonymous with public safety in an increasingly borderless world, while also helping manufacturers identify key markets, navigate compliance changes and keep an overview of regulatory and trade issues relevant to certification.

CERTIFICATION AND BEYOND

MARKET COMPLIANCE SOLUTIONS TO EXPAND YOUR PRODUCT REACH AND BOOST YOUR BRAND

THE UL DIFFERENCE

- UL facilitates fast global market access through well-proven global programs.
- UL offers bundled services including consultations, testing and certification for all your target markets, with only one product submission.
- UL is a leader in standards development and active driver in international committees of standards harmonization.
- UL is supporter and provider of strong credentials amongst Authority Having Jurisdictions, consumers, manufacturers and retailers.
- UL leads and participates in initiatives which help protect consumers and support manufacturers against counterfeiting practices.
- UL is an independent, trusted service provider known for integrity and rigor.

TESTING AND CERTIFICATION

UL can facilitate your market compliance through product testing and certification for all requirements and for all target markets:

- Safety
- EMC
- Wireless
- Energy Efficiency
- Sustainability
- Performance

ENHANCED UL CERTIFICATION MARK

As a further development of our classic Listing and Classification Marks, UL now offers the **enhanced UL Certification Mark**, which anticipates the future needs and evolving nature of product safety. It has been created to deliver greater clarity and acceptance in the market today, to provide greater transparency into a product's compliance and to facilitate bundling of current and future certifications. Both the existing marks and the enhanced UL Certification Marks will be in use, will appear on products in the marketplace and are indications of UL certification.

Example: **Current** **Enhanced**
 Certification Mark **UL Certification Mark**

Certification attribute depending on the product and its certifications
Combined Certification for the US, Canadian and EU market

CERTIFICATION BADGES FOR UL CUSTOMERS

Once a customer has received the **enhanced UL Certification Mark**, a UL Certification Badge is available. The badge is designed to promote and advertise the UL Certifications, providing an attractive way to share this information with the marketplace. UL Certification Badges can appear on a range of materials, from packaging to point-of-sale pieces and are available in several design options.

Example:
